

**Empowering Global Commodity  
Supply Chains**

A Nineteen75 Investments Company

## **Earth First. Always.**

Before markets, before margins, before movement - there is the Earth.

At Strand Commodities, we believe every transaction begins with responsibility. The soil that yields grain, the forests that provide fibre, and the oceans that carry our cargo are not merely resources; they are shared inheritances.

Our philosophy is grounded in an “Earth First” mindset - where commercial success must coexist with ecological balance. Recognising that global trade carries influence, and with influence comes obligation.

We operate with the understanding that sustainable growth is the only enduring growth. Every sourcing decision, every partnership, and every market expansion is evaluated through the lens of long-term environmental and social impact.

**Trade must nourish. Trade must sustain. Trade must endure.**

# Sustainability in Action

Sustainability at Strand Commodities is not a statement - it is a structured discipline embedded into our supply chain.

## Our framework is built around:

### Responsible Sourcing

1

Partnering with producers and processors who follow ethical, environmental, and regulatory standards.

### Traceability & Transparency

2

Strengthening documentation, inspection, and verification systems across regions.

### Circular Economy Participation

3

Supporting recycling ecosystems through our metals and industrial materials desk.

### Food Security Commitment

4

Ensuring stable access to essential commodities through reliable supply networks.

### Community & Stakeholder Alignment

5

Promoting long-term value creation for farmers, suppliers, logistics partners, and end buyers.

Sustainability is not a vertical within our business. It is the foundation of how we conduct it.

## Who We Are

Strand Commodities is a fast-growing global agribusiness specialising in the sourcing, processing, and distribution of essential food, feed, and fibre products across international markets.

We connect producers, processors, and buyers through integrated trade solutions that combine market intelligence, logistics expertise, risk management, and disciplined execution.

Our operations span agricultural commodities, industrial materials, animal nutrition solutions, and specialised product categories that serve critical global supply chains.

With a strong presence across origination and consumption markets, Strand Commodities enables dependable, transparent, and scalable commodity flows across regions.

## Mission

To connect global markets with quality products through reliable, efficient, and sustainable solutions.

## Vision

To be the most trusted leader in global commodity supply chains, driving sustainable growth and seamless resource flows across markets.

## About Strand Commodities

Established to redefine international commodity trade through strategic sourcing, structured trade flows, & operational excellence.

Operations across key global corridors, enabling efficient market connectivity for essential commodities that support food systems, manufacturing industries, and agricultural ecosystems.

## Message from the Founder & CEO

At Strand Commodities, our journey has been guided by clarity of purpose and disciplined execution.

We operate in industries that form the backbone of economies - food, feed, fibre, and industrial materials. With that responsibility comes a commitment to integrity, sustainability, and long-term partnerships.

Our relationships are not transactional. They are built on trust, performance consistency, and shared ambition. Across market cycles and evolving trade landscapes, our focus remains unchanged - reliability and responsible growth.

As we scale our global footprint, we continue to invest in systems, partnerships, and governance structures that reinforce transparency and resilience.

Our ambition is clear: to build a globally respected commodity platform that balances stability with innovation and commerce with conscience.

**Shine V. Nair**

NINETEEN 75  
Investments

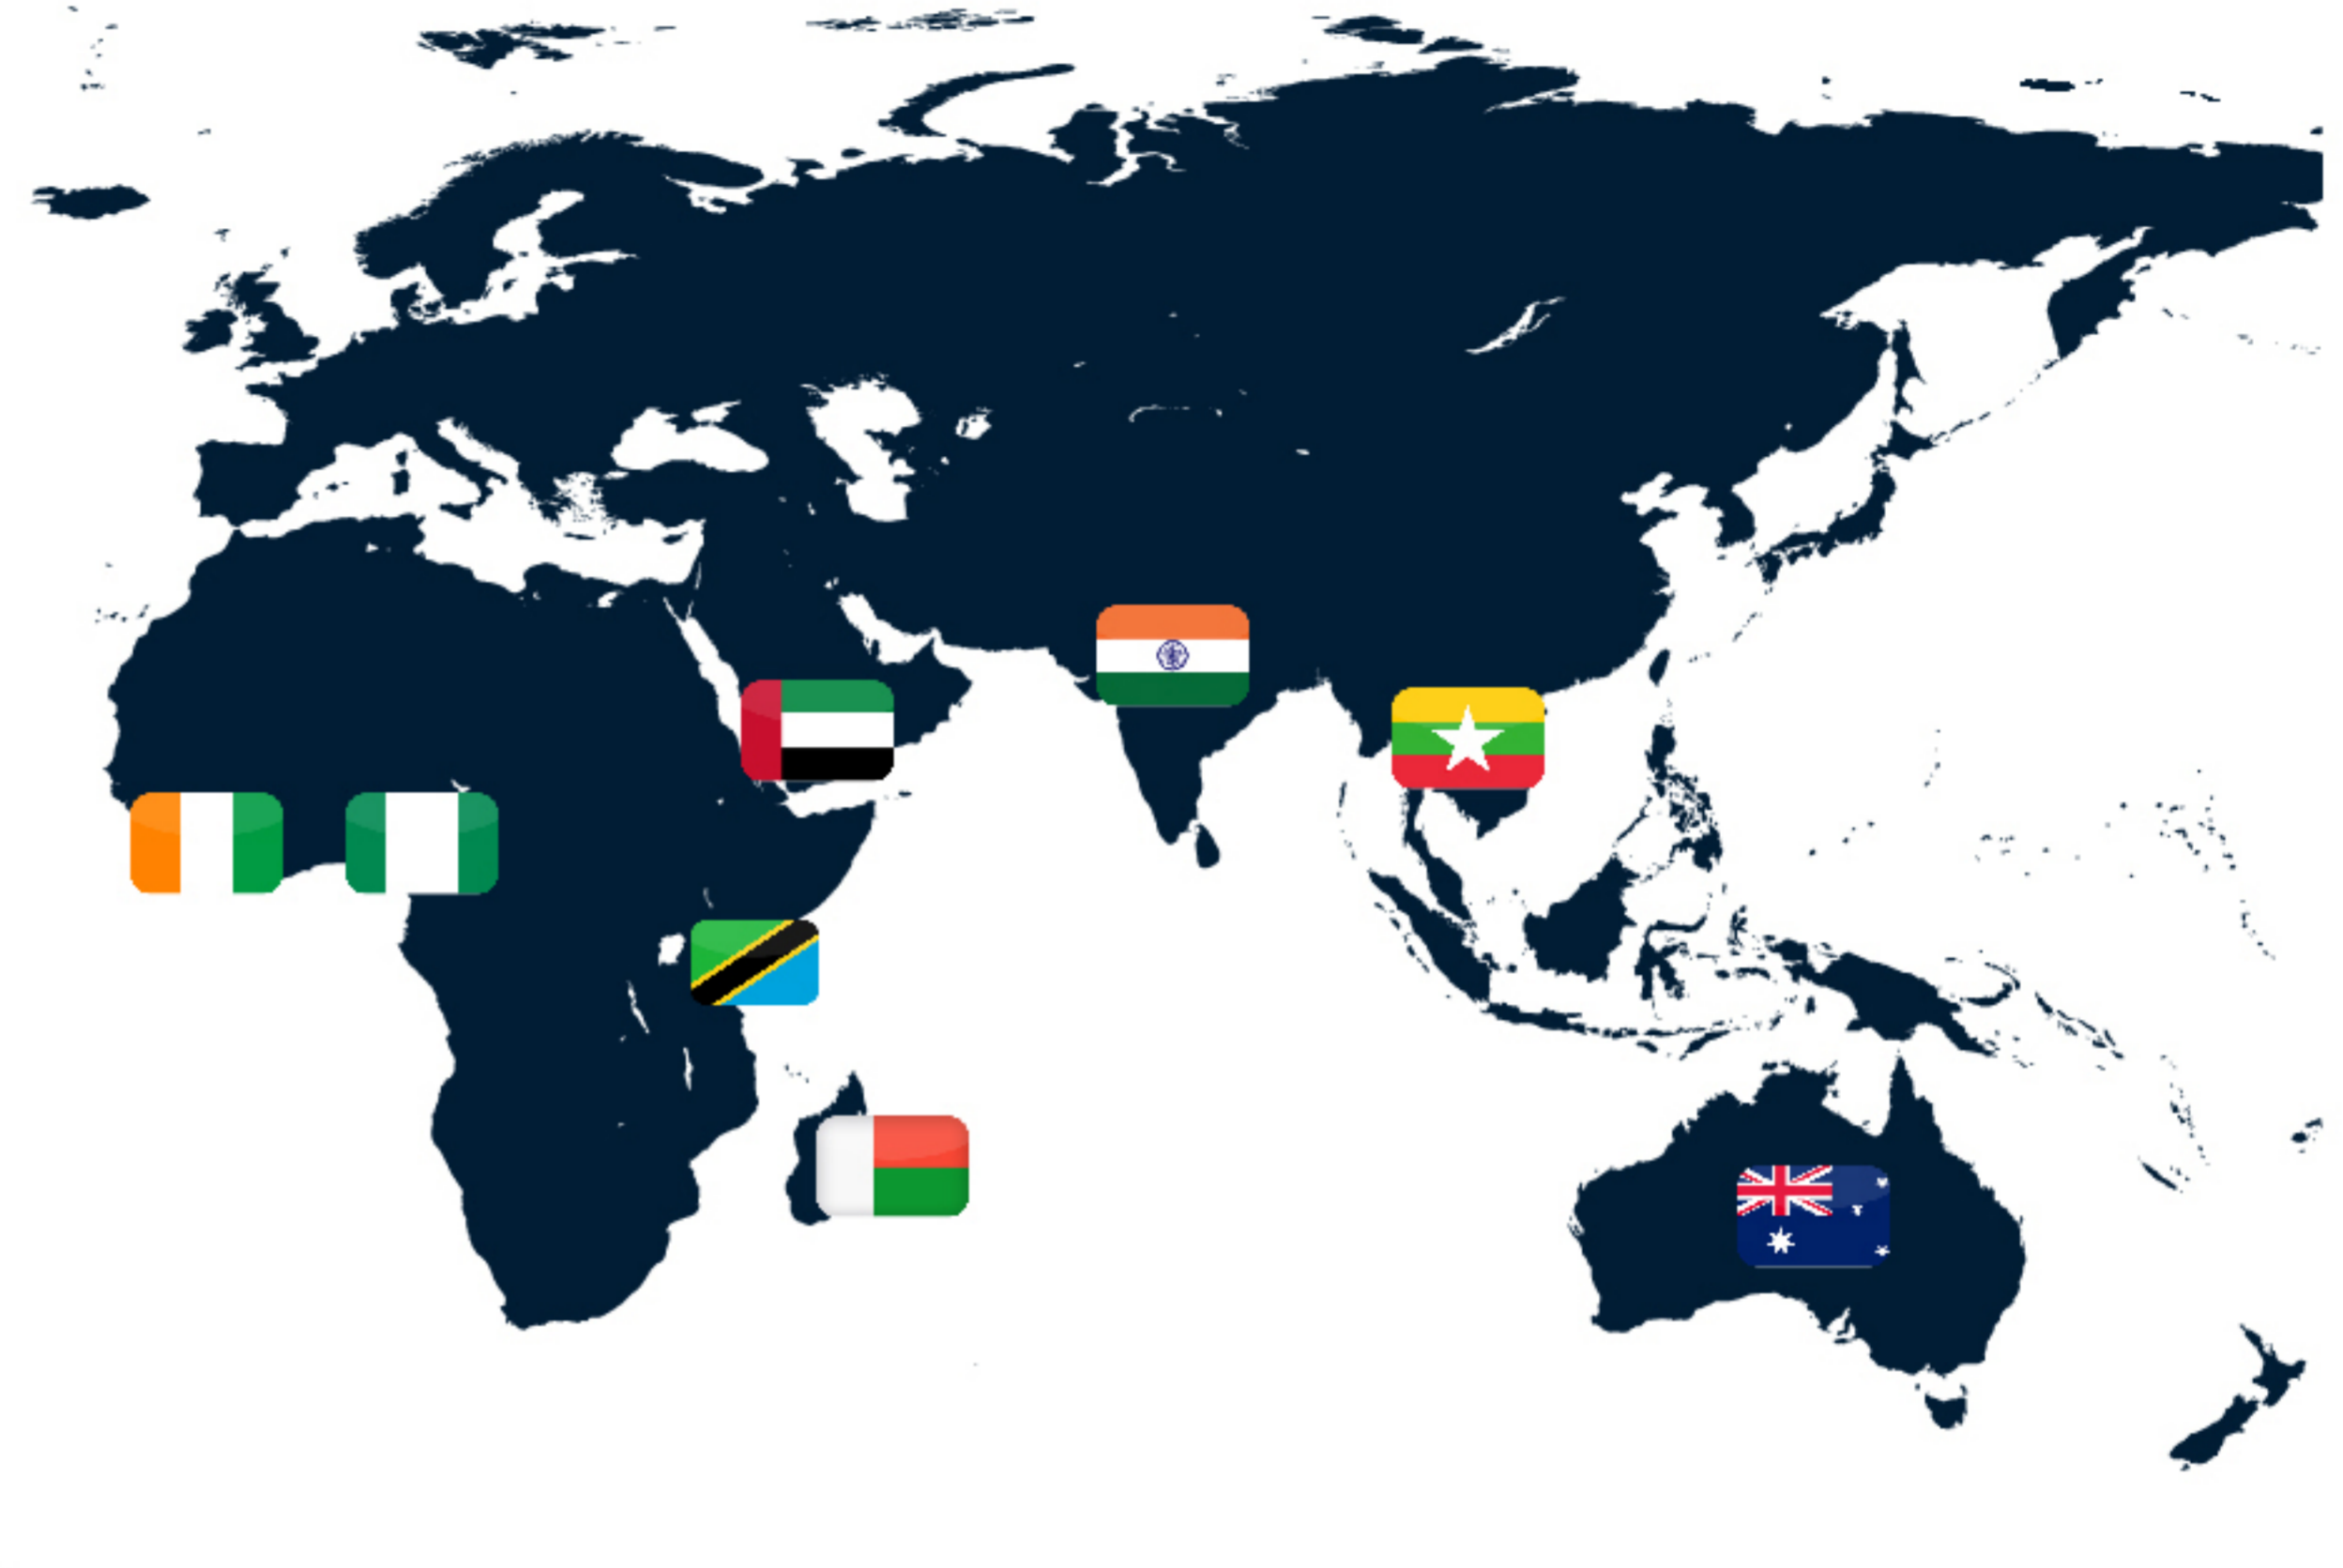

## The Holding Company

Operating under the legacy of Nineteen75 Investments, a diversified global group with decades of experience across construction, chemicals trading, real estate, and commodities.

The '70s legacy represents resilience, foresight, and adaptability - values that continue to guide our approach to responsible scaling,

disciplined growth, and strategic global participation.

Rooted in strong values, Strand Commodities creates long-term value through ethical trade, trusted partnerships, and responsible growth that benefits both business and society.

## Origination & Market Footprint

This expanding footprint ensures efficient sourcing, diversified supply bases, and continuity across regions.

## Origination Points

- UAE
- Madagascar
- Ivory Coast

## Opening Soon

- India
- Australia
- Nigeria
- Tanzania
- Myanmar

## Sales Representation

- Canada
- India

This footprint enables efficient sourcing, market access, and continuity of supply across regions.

## Integrated Global Agribusiness

A fully integrated agribusiness platform specialising in the sourcing, processing, distribution, and risk-managed trading of essential agricultural commodities.

Our portfolio spans food staples, feed ingredients, fibre products, and specialised agricultural categories that support global consumption

and manufacturing ecosystems. This integrated model enables us to deliver consistent supply, price discipline, and long-term commercial partnerships across regions.

Our agribusiness vertical is designed not merely for trade - but for structured value chain participation.

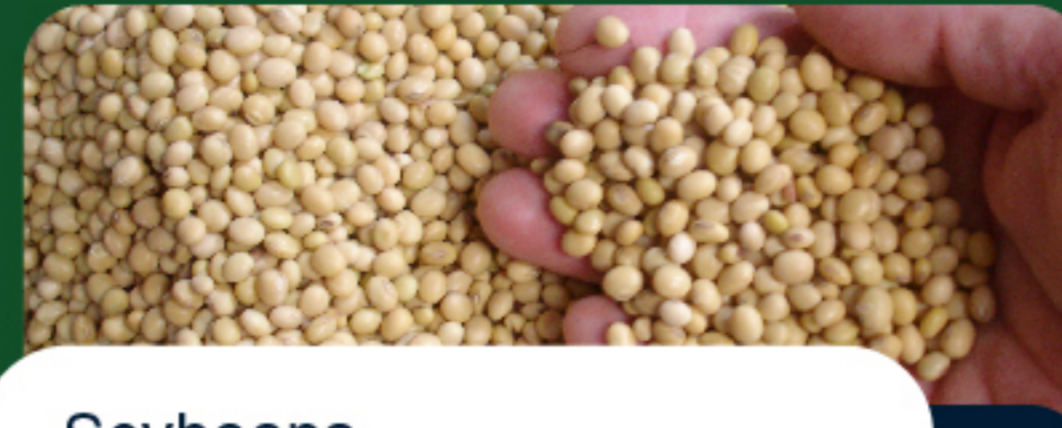

# Grains & Oilseeds

We ensure adherence to grading standards, logistics precision, and supply continuity across global markets.

Oilseeds

High grade quality seeds, rich in oil content and ideal for food & oil extraction industries / production.

Soybeans

Protein-rich soybeans suitable for oil processing and animal feed production.

Wheat

High-quality wheat exported for its superior grain strength, milling properties rich in nutritional value.

Barley

Premium quality with high nutrition, uniform grains, and excellent malting and feed properties.

Corn

Premium quality with high nutritional value and uniform kernels, ideal for food processing, animal feed, and industrial applications.

Rice

A major global supplier of diverse rice varieties, aligned to regional consumption patterns and export standards.

# Edible Oils

We partner with approved processors to maintain quality consistency and regulatory compliance.

Palm Oil

High-quality palm oil with excellent stability and versatility, ideal for cooking, food processing, and industrial applications.

Sunflower Oil

Light, refined sunflower oil with high purity and nutritional value, perfect for cooking and food manufacturing.

Other Vegetable Oils

A diverse portfolio including Soybean Oil, Mustard Oil, & Groundnut Oil - delivering to meet a wide range of global culinary and industrial needs.

## We combine:

- Market Intelligence
- Structured Trade Finance
- Logistics Optimisation
- Risk Management Solutions
- Quality Assurance Protocols

# Cotton, Specialty & Industrial Agri

We collaborate with approved suppliers to maintain standards and reliability.

## Cotton

One of the world's leading cotton suppliers, supporting Textile Manufacturing & Industrial Fibre requirements through structured sourcing networks.

## Animal Feed & Protein

- Compound Feed Solutions
- Livestock Feed Ingredients
- Protein Meal Products

## Specialty Grains & Seeds

- Nuts
- Pulses
- Specialty Seeds

## Other Products

- Rubber
- Wood Products

# Expansion into West Africa

Strong Sourcing Capabilities in Core Commodities.

Raw Cashew Nuts

Rubber

Sesame

Soya

## Fertilisers

We supply a comprehensive range of fertiliser products designed to support soil health, yield optimisation, and sustainable agricultural productivity. Our fertiliser sourcing strategy emphasises:

- Quality-compliant manufacturing partnerships
- Regulatory adherence

across regions • Stable supply contracts • Alignment with agronomic market requirements

By enabling reliable access to essential nutrients, we contribute to improved crop performance and long-term soil sustainability.

# Agro Chemicals

We supply crop protection and agricultural input solutions designed to enhance yield stability, plant health, and pest management efficiency.

## Our Portfolio:

Herbicides

Insecticides

Fungicides

Crop Protection  
Formulations

Soil Treatment  
Solutions

We collaborate with certified manufacturers and regulated supply partners to ensure:

- Regulatory Compliance
- Quality-controlled Formulations
- Stable Sourcing Contracts
- Responsible Distribution Practices

Through disciplined sourcing and compliance-driven trade execution, we support agricultural productivity while aligning with environmental responsibility frameworks.

## **Metals & Industrial Materials**

Our Metals Division focuses on the sourcing, trading, and structured distribution of ferrous and non-ferrous metals, along with selected secondary and industrial metal products.

We support recycling ecosystems, infrastructure development, and

manufacturing industries through specification-driven supply chains and disciplined trade execution.

Backed by global supplier networks, rigorous quality controls, & market intelligence, we ensure reliable deliveries and sustainable value creation.

# Metals Product Portfolio

## Ferrous Metal Scrap

- Heavy Melting Scrap (HMS)
- Shredded Scrap (ISRI 211)
- Re-rollable Steel Scrap
- PNS Scrap
- Stainless Steel Melting Scrap (Various Grades)

## Non-Ferrous Metal Scrap

- Copper (Millberry, Birch, Cliff)
- Aluminium (TT, Zorba, Zurik, UBC)
- Brass Scrap
- Cupro-Nickel Scrap
- Mixed and sorted ISRI-graded materials

## Secondary & Industrial Steel Products

- Galvanised Steel Products
- Hot Rolled (HR) Coils
- Cold Rolled (CR) Coils
- Seamless Pipes and Tubes
- Secondary and Surplus Steel materials

We facilitate material supply aligned with project requirements, manufacturing needs, and industrial applications.

All materials are traded in accordance with inspection protocols and defined quality specifications.

# Operational Excellence

Our operations are built on structured processes that ensure:

Quality Verification

Inspection-backed  
Documentation

Trade Compliance

Logistics Optimisation

Risk Mitigation  
Frameworks

We collaborate with recognised Inspection Agencies and Trade Finance institutions to ensure disciplined execution across regions.

# Global Trade Ecosystem

This ecosystem enables resilient and performance-driven supply chains.

## Strand's Network Spans:

Farmers and Producers

Processors and Recycling Facilities

Logistics and Shipping Partners

Financial Institutions

Regulatory and Inspection Bodies

# Governance & Integrity

We operate with accountability across jurisdictions and markets.

## Our Governance Framework prioritises:

- Ethical Trade Conduct
- Transparent Documentation
- Contractual Discipline
- Regulatory Alignment
- Long-term Stakeholder Value

# Scaling with Responsibility

As we expand across new origination markets and product categories, our strategy remains anchored in:

## Geographic Diversification

Expanding Responsibly Into New Markets

## Value Chain Integration

Enhancing Connections Across Our Supply Chain

## Technology-enabled Traceability

Leveraging Digital Tools To Ensure Transparency

## Sustainable Growth Models

Promoting Eco-friendly And Resilient Practices

## Risk-balanced Expansion

Balancing Growth With Careful Risk Management

Our objective is measured growth - built for longevity.
